

Cable BST

Abisolieren, Schneiden

This tool is made for these applications

Fine-stranded and solid conductors with PVC insulation

That is particularly

Tool adjusts itself automatically to the wire cross-section.

The POWERPLUS function supports you when processing special cables.

Reduce the splicing of the wire to a minimum - thanks to adjustable partial stripping, the strands remain protected for as long as you want.

Everything always to hand. Store up to two additional stripping blades in the tool handle.

Never cut a cable by mistake again - thanks to the integrated hand guard on the cutting function.

These functions make stripping more convenient

Process a wide variety of conductor materials with just one tool.

Stripping blades are available in straight, V and U shapes.

maximum flexibility. The stripping blades can be changed quickly and without tools. This allows you to react to other processing issues at short notice.

Further advantages offered by our Made in Germany standard

Premature tiredness - not with this tool. The ergonomic shape sits comfortably in your hand and reliably prevents this.

tool is extremely robust and offers maximum ease of use with the best cutting and stripping results.

Technical Data

Stripping range	0,03 bis 16,0 mm ² feindrähtige und massive Leiter mit PVC Isolierung
Cutting function	0.03 to 6.0 mm ² (solid conductors) 0.03 to 16.0 mm ² (fine-stranded conductors)
Adjustable stripping length	3,0 to 21,0 mm ²
Weight	195 g
