

UP 65

strong and flexible

WEZAG

Features

Technical data

150 kN Crimp Force | Electrical connection 230 V, 50 Hz

High-quality

Linear crimping motion provides high process quality and is an ideal choice for automotive and industrial applications

Application range

Uninsulated contacts up to 300 mm² | Insulated terminals up to 300 mm² | Automotive connectors up to 120 mm²

Process-optimized

Contact hold function through programmable return stroke with 30 memory settings, adaptable to your processing requirements

Flexible

React to different production orders with tool-free quick-change adapter system

Light

With 145 kg compared to other machines a lightweight, compact design, hydraulic aggregate integrated

Reliable

The production quantity is recorded by the electronic piece counter

Programmable

2 user interfaces (Setup | Production), lockable

Individual

Different adapters allow almost unlimited variability for individual customer solutions (use of external dies possible)

Varied

A selection of standard processing solutions with and without positioning system available from stock

Process-safe

Forced sequence control provides additional process quality

User-friendly

Safety or two-hand operation optionally available

Customized

Customized versions in design and function are available on request

Reliable

Quality Made in Germany and CE compliant

Technical Data
