

CS 40

light and powerful

WEZAG

Features

Price advantage

Due to flexible exchange system and application of cross sections up to 120 mm², which would otherwise only be processable as a machine solution

Hand force

Low due to optimum power transmission, high crimp force of 35 kN

Closed frame

Can be opened as required, e.g. when processing butt connectors, spring tension reduced to a minimum

Precise application

Crimping of wire and insulation in one step

Efficiency

The crimping process is completed with just a few strokes due to the integrated quick feeding system

Flexible tool system

Consisting of basic tool and crimp die sets

Die sets

Can be replaced quickly and without tools

Locator system

Optionally available in combination with die set

Construction

High guidance capacity due to double-guidance-system

WDT compatible

With appropriate adapters, matrices can also be used as a machine-based processing solution

Ergonomics

Soft handles ergonomically designed with slip protection

Releasable ratchet

Ensures the complete crimp process

Quality

Completely made of high-tempered special steel, specific stressed parts are specially heat treated

Long-life cycle

High-precision manufacture, the tool is optimally adjusted at the factory and requires no further adjustment of the crimp force

Your strong trademark

Special tools are only available as white label products. No additional competition from us as manufacturer brand!

Individual Toolkit solution

Tool series can be assembled to suit your customized repair solution

Handle colours individualizable

Choose the right colour from our standard range of colours

Individual marking

With your logo and further information such as article number and description
